

2015 CRAG CREST TRAIL 10.5 MILE

Island Lake Trailhead across from Island lake, literally, a "top of the world" experience.

We had 38 runners (!) at this race. Beautiful day, sunny, no wind, ordinary mosquitoes, not raining. (*Ed. note: heck! can't beat that!*).

Two people came in by Hi-way, one by car (turned ankle) and one by mis-direction (took a left turn on lower route). The upper loop is not too confusing if the runner just goes all the way down to the campground and then takes a hard right. From there to Forest Queen Outflow it is o.k. However, a few years ago two men bulldozed a "road" along the west side of Forest Queen Outflow which was illegal. Consequently, one runner followed it down to a locked gate and fortunately he turned back.

The lower loop has many left turns which have to be ignored. Our (family) payback is the interaction of runners, who are universally a very friendly, convivial mob. We wouldn't miss it for anything !

Thanks

Paul Wubben
