

AUGUST 4: originally slated for July 7, the CRAG CREST TRAIL ‘experience’, 10.5 miles up on-top-of-the-whirled occurred. This year’s Crag Crest run had to be rescheduled to give the massive snow banks time to melt and the course had to be revised to steer clear of logging operations but, nevertheless, Striders showed up on August 4 and conquered the Crest, not once but twice! The revised course was an out-and-back across the Crest with the turnaround at the fabulous overlook about a quarter mile down the East side. All made it off the Crest before the thunder rolled so it was a great day.
